Please note that the processing time clock commences from the business day on which our paralegals have all of the information/documentation required to prepare the case. If any documents and/or information is missing on a pending case, the clock resets/restarts on the business day on which the complete/final missing documentation/information is received. Above times are approximation of typical processing times but actual processing time may vary depending on circumstances of each case. While every effort will be made to process your case within the above approximated processing time, processing times are not guaranteed.
